TRAEBER GRILLS

Available at: Hal-Mark & Edgerton

Taste! Food coming off a Traeger grill simply tastes better... It is just that simple! In fact, most people purchase Traeger products because they have already tasted the Traeger difference at a backyard BBQ at a friend's house or at a Traeger demonstration at a local business. But be careful - once you taste it, you'll be hooked...

\$\$ Savings \$\$ - With Traeger grills you can buy less-expensive cuts of meat and get amazing results. Talk about savings! And when you do splurge on that expensive cut of meat, you know that your Traeger grill will make it taste even better. No need to worry about destroying the main course due to a flare-up. Traeger grills eliminate all of the hassles that come with operating a fossil-based propane or charcoal fuel. Now you can use renewable and flavorful hardwood as a fuel at about the same operating cost as propane or charcoal.
